Positive: Professionalism, Punctuality, Value

I could not be happier with the technicians that were able to come out on short notice after my water heater had leaked and gotten underneath all of our brand-new floorings. The water damage honestly was not so bad but it happened while we were away for a weekend so mold was starting to grow. Revive Water Damage Restoration of Orlando got everything repair and all the mold removed. They are an amazing company!

Positive: Punctuality, Quality

The guys at Revive Water Damage Restoration are so good. They navigated dealing with our water damage in Orlando in a very professional manner. I really liked how they operated as a company. No frustrations on my end. Everything just went well. The water was dealt with, they came with these huge drying fans and left them there for a while to dry everything. And then did the demo and rehab.

Positive: Quality, Responsiveness

Thanks to Revive for the quick response. In my experience, they are a top-tier Orlando company. I say this as I work with clients and we've hired 200+ companies for home services. The crew did a great job assessing the damage and solving the issue on this property! We were super impressed with the work performed. If we deal with water damage for clients in the future we will be using them again.

Positive: Professionalism

I had a bad water intrusion in my home. Louis showed up with a few of his guys when I called and got someone out and right away he let me know what was going to take place. Then he we right to work with his team. They worked fast and got everything dried for me so quickly. I would recommend none but Revive Water Damage Restoration of Orlando for water mitigation.

Positive: Punctuality

Ahhh what can I say other than AMAZING! Thank YOU SO MUCH, guys! You're life saved you know that? When we called you showed up on time and soon after when others didn't even pick up and got everything sorted so fast. I don't EVER want to have a washing machine flood again but if anyone ever does need a company and I know they need one for water damage restoration, mold removal or anything else you go I'll recommend you to my friends.
