Such an amazing experience when dealing with such a difficult situation such as water damage knowing that it might cost us a lot to fix if insurance wouldn't cover everything. We called this company they just know people. In life when you deal with some companies they don't have a clue. But Revive in Tampa just know how to deal with things. When we called they came out within 40 minutes. When they came the techs were brilliant. We had water damage in the roof and it leaked down the drywall also. When they came out they explained exactly what needed to be done to get everything fixed. They helped us deal with the insurance company also to make sure everything went smooth. They fixed everything. They did extra moisture tests, checked for mold and use those big drying air mover blower things to make sure everything was 100%. The entire experience was bar none. 10/10 guys. Please keep up the good work. I hope to god I will never have to deal with water damage again but if I do I have your number saved in my phone and I will be calling your right away. Thanks again!

Revive Water Damage Restoration is the BEST company in town! I would recommend them to everyone in Tampa who has a water, flood or mold issue. They were there the same day that I called and they were able to quickly dry out my house after the toilet overflowed with the water flooding down the stairs. The technicians were very nice and professional. I was extremely pleased with how well they cleaned everything and got it looking better that it was before after the restoration work was completed.

Positive: Professionalism, Quality, Responsiveness, Value

My house was recently flooded as a result of Hurricane Ian. However, I am fortunate to have found Revive Water Damage Restoration of Tampa.

Their service is both professional and personable. They conducted a thorough inspection and clearly explained their proposal for repairing water damage. This company impressed me from start to finish, and they take great pride in their work, which resulted in a nice outcome that made me feel confident in their work. Everything was done flawlessly. In Tampa, I would highly recommend their services.

Service: Flood restoration

I know it's hard to find a trustworthy company in Tampa for this service as we deal with clients all day long for all kind of emergencies with our emergency concierge service. Our clients are busy people and we help the organize anything they need 24/7 no matter what it is.

So I'm very glad I found Revive Water Damage Restoration of Tampa. They've been able to quickly and efficiently handle both my minor and major water damage concerns for our clients. From memory we have used them 12 times now just in 2022 alone.

Each time they have been called out it's been a breeze to work with them. I remember one client that had a major water damage emergency with water flooding down from their top floor. They were on site within 25 minutes to start resolving the issue. Another one was some minor water damage that created a bad mold problem and the speed of this company and how they were able to get rid of all the mold so fast was nothing short of amazing.

If you are reading this and need any restoration work I suggest call them. As this is the only company we use and our client pay us a premium for our services.

The Revive Water Damage Restoration of Tampa team is assisting us with removing and replacing our water-damaged drywall in our Tampa home due to a roof leak. After inspecting our roof, we discovered some mold and are attempting to remove some mold from where the water dripped in. They were efficient and finished the job in a few days. We were pleased with the work produced by Revive Water Damage Restoration. They were a pleasure to work with and produced an excellent result.

Service: Water damage-related mold removal

Positive: Quality, Value

We came home to water everywhere after going out for lunch. The restoration team came out pretty quickly after we called. They started to clean everything right away. They came back the next day to check on the fans for drying. In fact they came back every day to check on it. Once everything was dry they rebuilt everything. They were really good with this part also. They got us to sit down with an architect as we wanted to take the opportunity to do a partial renovation at the same time and they were able to help us rebuild exactly what we wanted. Revive Water Damage Restoration of Tampa are true professionals and we will contact them again if the need arises. We hope that doesn't happen as that means more water damage right. But if it does we know who to call back.
